

CG200

2 people

x 1 module

TECHNICAL DATA

Man basket crane model **CG200** is designed for lifting operators and loads. Ideal to anticipate possible rescues of operators at height and to perform work that is difficult to access.

The **CG200** model consists of 1 module and is suitable for 2 operators.

The crane hanging basket is composed of painted steel elements and its construction is modular. The assembly is done by screws for maximum safety.

Dismantled fits by spaces (manholes) Ø 1.200 mm.

Its modular and removable design allows the assembly of the basket, facilitating and oppressing its transport and storage.

All baskets have anchor points certified according to EN795 for each of the users.

They have an access door with automatic locking system, guardrail and baseboard, interior handrail to avoid entrapment, non-slip floor, protection roof, etc. Included 4-branch lifting with shackles and central ring.

The **CG200** crane basket is delivered with an instruction manual in Spanish, certified and have incorporated load plates and product identification.

Compliant with **EN14502 standard**.
